- Increased automation ✓
- Intelligent product planning tools ✓
- Maximized efficiency ✓
- Obsolescence issues eliminated ✓
- Off The Shelf components ✓
- Enhanced diagnostics ✓
- 24 x 7 remote support ✓
- Increased reliability ✓

The mailroom is a money making engine; efficient and effective product planning and machine up time have a direct effect on the bottom line. Harland Simon's post press systems provide an end to end solution enabling the complete control of a newspaper packaging production line. 'Off-the-shelf' hardware and intelligent user focused software provide the reliable tools needed to maximize productivity and minimize machine down time. Our systems can be split into three distinct areas:

- Post Press MIS - Mailroom Management System (MMS) – Interface to circulation, advertising and equipment control, daily, Sunday and TMC product planning, equipment scheduling, monitoring, reporting and totalizing.
- Inserter Controls – InsertNet - Daily, Sunday and TMC inserting, Free Standing Insert (FSI) tracking, intuitive PC based operator controls, highly reliable PLC based machine controls, extensive diagnostics, drive and IO replacement.
- Downstream Controls / Interface – Communication to, and/or control of conveyors, reject stations, stackers, labelers and bundle distribution systems, interfaces to and from inserters and post press MIS.

Throughout our extensive product line Harland Simon provides only premium products. We are proud of our work and let our reputation speak for itself. Customer service and after sales support is a priority for every employee and we strongly urge you to contact our existing install base.

MAILROOM SYSTEMS

Integration Automation Control

Integrate third-party equipment. Automate manual processes.
Control your production with a **Harland Simon** system.

Harland Simon can control and manage your production throughout the entire process. For more than twenty five years we have provided solutions for the world's most demanding newspaper printers. If you're buying new equipment, our experience and technical expertise mean we can work in partnership with your choice of manufacturer to give you state-of-the-art functionality built on an industry-standard platform.

If you're considering upgrading your site, we can make your day-to-day production secure by eliminating troublesome and unsupported components. We can improve quality and reduce costs with a range of enhancements from pre-press right through to the mailroom. We can provide the tools you need to analyse production and diagnose faults quickly and offer 24x7 support when you need it. We can put you in control.
