

# Prima MS workflow edition

## Press Management and Presetting

- Plan production ✓
- Reduce start-up waste ✓
- Real-time monitoring ✓
- Management reports ✓
- Maintenance fault logs ✓
- Intranet visibility ✓
- Any press, any configuration ✓

The Prima MS press management system and RIPSet ink presetting source, together provide the facilities to plan production, set up the presses, monitor progress and analyse performance.

The system can be provided for any number of presses, each with their own characteristics in terms of configuration and capabilities. They don't even have to be supplied by the same press manufacturer.

Centered around a wizard-driven, easy-to-use planning tool all tasks and functions are seamlessly integrated into a single workflow style based upon familiar Windows look and feel.

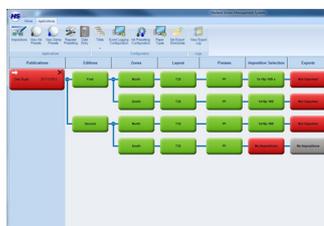

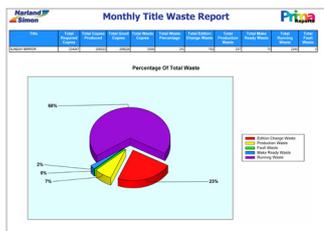

Running on Microsoft Windows and based around an SQL Server 2012 database, the Prima system is completely scalable and can run on a single PC or in a site wide client/server configuration.

The core modules include –

- A powerful imposition creation utility
- Gantt style production planning
- RIPSet interface to the front end system to obtain ink coverage data
- A 'presetting toolbox' to calibrate ink data according to press criteria
- Self-improving presetting for even lower start-up waste
- Various real-time views of production
- A suite of management reports to analyse performance
- User configurable browser based reporting tool

Options include -

- Fully integrated auto-impositioning tool
- Import and Export integration to 3rd party systems

# Integration Automation Control

Integrate third-party equipment. Automate manual processes.  
Control your production with a **Harland Simon** system.

**Harland Simon** can control and manage your production throughout the entire process. For more than twenty five years we have provided solutions for the world's most demanding newspaper printers. If you're buying new equipment, our experience and technical expertise mean we can work in partnership with your choice of manufacturer to give you state-of-the-art functionality built on an industry-standard platform.

If you're considering upgrading your site, we can make your day-to-day production secure by eliminating troublesome and unsupported components. We can improve quality and reduce costs with a range of enhancements from pre-press right through to the mailroom. We can provide the tools you need to analyse production and diagnose faults quickly and offer 24x7 support when you need it. We can put you in control.
